

# Art Camp 2020

*Art Camp is a multidisciplinary camp for ages 5-11 (no exceptions). Classes include art, ceramics, cooking, dance, drama, and music. Students meet three hours a day Mon-Thu for two weeks. There are two time options: 9am-12pm or 1-4pm. There are three camp sessions each summer: June 15-25; July 6-16; July 27-August 6. The following letter outlines adjustments which will allow us to move forward with art camp while supporting a healthy community.*

## Dear Parents ,

We are working to prepare a flexible plan for Art Camp that will enable us to respond to the changing health status of our community, staff, and patrons throughout the summer. We are following the guidance of the Bear River Health Department and will continue to monitor and make adjustments based on state and local guidelines. It is very important that you provide a good email and check in regularly for updates. Thank you for your flexibility, patience, and continued support of this program! Consistent with the dial our governor has used to illustrate levels of risk in each community, here is our plan to support those recommendations while allowing Art Camp to continue:

**Red :** Classes held virtually with live stream and/or recorded class activities.

**Orange :** Virtual classes may be held for some or all classes. In person classes will observe 6-10 foot spacing. Curbside drop off and pickup. Hand washing will happen as students arrive, between classes, and at the end of the day. Shared tools and workstations will be sanitized between groups.

**Yellow :** Children may sit next to each other. Hand washing will happen as students arrive, between classes, and at the end of the day. Shared tools and workstations will be sanitized between groups.

**Green :** Children may sit next to each other. Hand washing will happen as students arrive, between classes, and at the end of the day. Shared tools and workstations will be sanitized between groups.

## General policies :

- Class sizes will be limited to no more than 12 students per class.
- Children will be grouped by household this year.
- There will be no in-person cooking classes. Virtual cooking classes are still a possibility.
- In-person classes: We clean and disinfect our facilities regularly. Art Camp will provide each enrolled student with a bandana that may be used as a mask. Patrons are responsible for their own health and the decision to attend classes. Please follow best practices and public health recommendations. If you choose not to attend when we are meeting, we will provide at home options which might include worksheets, recordings, or live stream.
- If a teacher is not able to provide an in-person class, they will provide a virtual class. A shortened in-person art camp schedule will be provided to you. A shortened schedule is also likely while our community is in the "orange." Here are two possible examples of a shortened schedule: AM Yellow+Blue Groups attend 9:00-10:40am. AM+PM Red Groups attend 11-12:40pm and PM Yellow+Blue attends 2:20-4pm. Or, AM Red+Blue Groups attend 9-10am and Yellow Group attends 11-12pm. PM Red+Blue attends 1-2pm and Yellow attends 3-4pm. We recommend you check your email before you come to camp each day in case we have to switch to a shortened or virtual schedule overnight.

Again, these plans and procedures may need to adjust. Regardless, we are working to move forward with art camp in whatever form it needs to take and invite you to join us!
